RASTAL NPF Matting Agent

CHARACTERISTICS (INTERNAL METHODS)

- Solid content 30 – 34 %
- Appearance Milky
- Solvents Xylene/Toluene

APPLICATIONS

RASTAL NPF is a matting agent suitable for PU, nitro and acid curing coatings giving surface softness and an excellent clear appearance to dried film.

RASTAL NPF doesn't influence curtain coater application.

RASTAL NPF can be used between 5 – 20 % on final formula.

COMPATIBILITY/SOLUBILITY

RASTAL NPF is compatible with short and medium-oil alkyds, nc, cab, amino resins and isocyanates.

RASTAL NPF is reducible with acetates, ketones and aromatics; it is partially reducible with aliphatics and alcohols.

However, due to the huge number of potential partners, preliminary tests are recommended.

SHELF LIFE AND STORAGE

RASTAL NPF if stored in original sealed container in protected areas doesn't have a limited shelf life.

For all information related to handling and toxicological knowledge, please refer to the Safety Data Sheet.
