

Dispex Ultra[®] FA 4430

(old : Lumiten[®] N-OC 30)

The Chemical Company

general Dispex Ultra[®] FA 4430 is a nonionic surfactant used to improve the storage stability of emulsion paints and their compatibility with cement and lime.

chemical nature ethoxylate of a fatty alcohol in water

Properties

physical form liquid

shelf life subject to appropriate storage under the usual storage and temperature conditions, our product is durable for at least 6 months.

**typical properties
(no supply specification)**

pH value (DIN EN 1162)	~ 6.5
color (Hazen, DIN EN 1557)	~ 100
water (DIN 51777)	~ 70%

Application

Dispex Ultra[®] FA 4430 is a nonionic surfactant used to improve the storage stability of emulsion paints and their compatibility with cement and lime. It can be used in interior paints, exterior paints and textured finishes. Dispex Ultra[®] FA 4430 offers performance highlights such as:

- excellent improvement of compatibility with cement and lime
- improvement of storage stability
- easier cleaning of equipment

recommended concentrations

An addition level of about 0.3% - 1.0% in relation to the final formulation is recommended.

storage

A cloudiness or precipitation can appear during storage at temperatures lower than 20°C. This effect is reversible at temperatures higher than 25°C.

Safety

When handling this product please comply with the advice and information given in the safety data sheet and observe protective and workplace hygiene measures adequate for handling chemicals.
