

SILRES® BS 1346

MASONRY WATER REPELLENTS

Product description

SILRES® BS 1346 is a nonionic, solvent-free, water-dilutable emulsion of a reactive polysiloxane.

Application

SILRES® BS 1346 is used in undiluted form as a hydrophobizing additive for aqueous masonry paints or plasters to increase water repellency, water resistance and water vapour permeability as well as to enhance processability and anti-blocking properties.

Suitable for:

- silicone resin emulsion paints and silicone resin emulsion plasters
- silicate emulsion paints and plasters
- highly-filled emulsion-based coatings
- emulsion-modified whitewash
- stoppers

Paints and plasters modified SILRES® BS 1346 are characterized by an excellent water beading effect.

Processing

SILRES® BS 1346 can be added in undiluted form to

aqueous masonry paints or plasters during or after their production. The addition of 1 to 3 wt.-% is recommended.

Storage

The 'Best use before end' date of each batch is shown on the product label.

Storage beyond the date specified on the label does not necessarily mean that the product is no longer usable. In this case however, the properties required for the intended use must be checked for quality assurance reasons.

Safety notes

Comprehensive instructions are given in the corresponding Material Safety Data Sheets. They are available on request from WACKER subsidiaries or may be printed via WACKER web site <http://www.wacker.com>.

Product data

Typical general characteristics	Inspection Method	Value
Appearance		milky
Solids content		approx. 55 wt. %
pH-Value at 20 °C	Indicator strips	approx. 7,5
