

Technical Data Sheet

Product: Aluminum Paste APM 801

Test Items		Specification
Particle Size	D50 (µm)	10
Non Volatile Content (± 2%)		60
Solvent		MS/D80
Screen Analysis <45µm(≅ %)		99.0
Specific Gravity (g/cm ³)		1.5
Particle Shape		Flake Corn
Leafing / Non-Leafing		Non-Leafing

Solvent Type: MS—Mineral Spirit D80

Package: 25KG - Iron Drum

Properties:

This series of non-leafing aluminium paste has extraordinary hiding power, good whiteness, and medium lightness, providing strong tinting strength and elegant metal effect.

Typical Applications:

For solvent system.

Widely applied in general industrial coatings, coil coatings, automotive refinish coating, marine paint
